MPS-YPG

Globe Valve

MADE IN USA

KEY FEATURES

MPS-YPG Valve Repair Kit

ACTUATION FLEXIBILITY

Swap out actuators with ease, deciding to change an actuator doesn't have to be costly and time consuming.

SMART TRIM DESIGN

With a removable seat, there's no grinding or welding needed, just remove the seat and install a new one.

AFTERMARKET EASE

With all parts made in-house or simple hardware in our inventory, all parts will be in stock...always.

SIMPLE MAINTENANCE

Designed by those who make the repairs to allow for the easiest and fastest possible repairs on the fly.

MPS-YPG

Globe Valve

Thrust Bearing
Minimize force needed for operation.

Actuator Adaptor Plate
Flexible design makes actuator mounting simple and customizable.

Removable Seat and Cage
Allows for easy and low cost maintenance.

Meets all the requirements of ASME B16.34

Simple Hardware
Valve is assembled with basic hardware making required tools simple.

Made in the USA
With all parts in stock, this all forged valve assembly makes this valve something to count on. No more waiting for foreign cast replacement parts.

Non-assembled Plug & Stem
Slide in stem design allows for simple, quick maintenance and cheaper replacement of parts.
